APPLICATION
The electronic tensile strength test machine is used for edge seal strength test according to EN 1279-4.

SPECIFICATIONS
- Precision grade: 0.5
- Test accuracy: ≤±0.5%
- Displacement accuracy: ≤ ±0.5%
- Speed range: 0.001-200mm/min (stepless adjustable)
- Speed accuracy: ≤ ±0.5%
- Effective range: 800mm
- Working area width: 400mm
- Computer control with data processing function
- Maximum load: 5kN
